

MATRIZ DE VALIDAÇÃO: 54 Textos × Tipos em orbit.ts

#	Texto da Base	Tipo em orbit.ts	Shape Esperado	Shape Real
 	Observação			
1	"AlertSeverity: info/warning/critical"	AlertSeverity (L33)	'info' 'warning' 'critical'	'info' 'warning' 'critical' 
2	"Alert com clientId, severity, title, description"	Alert (L50-62)	{ id, clientId, severity, title, description, metricName, metricValue, thresholdValue, isResolved, createdAt, action }	{ id, clientId, clientName, clientHandle, type, severity, title, description, metricName, metricValue, thresholdValue, isResolved, createdAt, action }  DIVERGÊNCIA: Texto não menciona clientName, clientHandle, type
3	"FetchStatus: idle/loading/success/error"	FetchStatus (L65)	'idle' 'loading' 'success' 'error'	'idle' 'loading' 'success' 'error'  Correto
4	"AsyncState<T> com data, status, error"	AsyncState<T> (L67-71)	{ data: T null, status, error }	{ data: T null, status: FetchStatus, error: string null }  Correto
5	"IGAccountOverviewData com followers, engagement_rate, posts_count, stories_count, avg_likes, avg_comments, last_updated"	IGAccountOverviewData (L73-81)	7 campos conforme texto	7 campos conforme tipo  Correto
6	"DashboardHeaderMeta com clientHandle, periodLabel, dateRange"	DashboardHeaderMeta (L83-89)	{ clientHandle, periodLabel, dateRange: { start: Date, end: Date } }	{ clientHandle: string, periodLabel: string, dateRange: { start: Date, end: Date } }  Correto
7	"KPICardData com label, value, unit, delta, deltaLabel, semaphore, glowColor, subtitle"	KPICardData (L91-108)	8 campos base + sourceLevel, playRate	8 campos base + sourceLevel?, playRate?  Correto (campos opcionais adicionados)
8	"QualityScoreItem com label, value, unit, statusText, statusVariant, glowColor"	QualityScoreItem (L110-117)	6 campos conforme texto	6 campos conforme tipo  Correto
9	"FormatPerformanceRow com format, posts, shares, trendLabel, trendColor"	FormatPerformanceRow (L119-125)	5 campos conforme texto	5 campos conforme tipo  Correto
10	"InsightData com text"	InsightData (L127-130)	{ id, text }	{ id: string, text: string }  Correto
11	"CriticalAlertData com title, body, severity, description, actionUrl"	CriticalAlertData (L132-139)	5 campos conforme texto	5 campos conforme tipo  Correto
12	"IGOverviewData com meta, kpis, qualityScores, formatPerformance, insights, criticalAlerts"	IGOverviewData (L141-148)	6 campos conforme texto	6 campos conforme tipo  Correto

- 13 "FunnelMetrics (PT-BR): alcance, visitas, cliques, vendas, ctrBio, taxaConv"
FunnelMetrics (L150-157) 6 campos em PT-BR 6 campos em PT-BR
✅ Correto
- 14 "FunnelActualMetrics (EN): reach, profileVisits, linkClicks, ctrBio, conversionRate"
FunnelActualMetrics (L159-165) 5 campos em EN 5 campos em EN
✅ Correto (tipo morto, mantido)
- 15 "SliderConfig para simulador com key, label, min, max, step, unit"
SliderConfig (L167-174) 6 campos conforme texto 6 campos conforme tipo
✅ Correto
- 16 "SimulatedFunnelResult com reachSimulated, profileVisitsSimulated, linkClicksSimulated, conversionsSimulated"
SimulatedFunnelResult (L176-181) 4 campos conforme texto 4 campos conforme tipo
✅ Correto
- 17 "UseFunnelResult estende AsyncState + params, setParams, refetch"
UseFunnelResult (L187-192) AsyncState + 3 campos AsyncState + 3 campos
✅ Correto
- 18 "FunnelMetricsRow com reach_total, profile_visits, link_clicks, period_start, period_end"
FunnelMetricsRow (L194-200) 5 campos conforme texto 5 campos conforme tipo
✅ Correto
- 19 "TabId: overview/metrics/health/alerts/settings/por-post/audiencia"
TabId (L210-217) 7 valores conforme texto 7 valores conforme tipo
✅ Correto
- 20 "IGOverviewLegacyData (duplicata de IGAccountOverviewData)"
IGOverviewLegacyData (L219-227) 7 campos idênticos 7 campos idênticos ⚠️
OBSERVAÇÃO 6 CONFIRMADA: Duplicata semântica
- 21 "ClientHealthStatus: healthy/warning/critical/unknown"
ClientHealthStatus (L229) 4 valores conforme texto 4 valores conforme tipo
✅ Correto
- 22 "ClientMetrics com engagement_real, ctr_link, follower_balance, polemic_score_pct, follower_churn_pct, segment"
ClientMetrics (L231-243) 6 campos + segment aninhado 6 campos + segment aninhado
✅ Correto
- 23 "Client com id, handle, name, avatar, status, metrics, lastUpdated"
Client (L245-252) 7 campos conforme texto 7 campos conforme tipo
✅ Correto
- 24 "OrbitClientHealthRow com client_id, handle, avatar_name, metric_count, avg_quality_score, health_status, last_updated, days_since_update, max_confidence_level"
OrbitClientHealthRow (L257-265) 9 campos conforme texto 9 campos conforme tipo
✅ Correto
- 25 "validateOrbitClientHealthRow: type guard com todos os campos"
validateOrbitClientHealthRow (L267-282) Valida 9 campos Valida 9 campos
✅ Correto
- 26 "hasVolumeData: metric_count > 0"
hasVolumeData (L284-287) Retorna boolean Retorna boolean
✅ Correto
- 27 "isReallyCritical: health_status === 'critical' && metric_count > 0"
isReallyCritical (L289-295) Retorna boolean Retorna boolean
✅ Correto
- 28 "OrbitAlertRow com id, client_id, alert_type, severity, title, description, metric_name, metric_value, threshold_value, action_url, is_resolved, created_at,

clients (join)" OrbitAlertRow (L305-319) 13 campos conforme texto 13 campos conforme tipo  Correto

29 "validateOrbitAlertRow: type guard completo" validateOrbitAlertRow (L321-339) Valida 13 campos Valida 13 campos  Correto

30 "LegacyAlertRow com id, client_id, title, description, severity, created_at, clients (join)" LegacyAlertRow (L341-348) 7 campos conforme texto 7 campos conforme tipo  Correto

31 "validateLegacyAlertRow: type guard" validateLegacyAlertRow (L350-363) Valida 7 campos Valida 7 campos  Correto

32 "AvatarAlignmentRow com expected/real gender, age, interest, geo + alignment_score, alignment_status" AvatarAlignmentRow (L365-383) 16 campos conforme texto 16 campos conforme tipo  Correto

33 "validateAvatarAlignmentRow: type guard" validateAvatarAlignmentRow (L385-411) Valida 16 campos Valida 16 campos  Correto

34 "AvatarValidationRow com client_id, validation_date, observed_interest, observed_geo_primary, source, confidence_level, notes" AvatarValidationRow (L413-421) 7 campos conforme texto 7 campos conforme tipo  Correto

35 "validateAvatarValidationRow: type guard com enums" validateAvatarValidationRow (L423-441) Valida 7 campos + enums Valida 7 campos + enums  Correto

36 "IgAccountSnapshotEnrichmentRow com client_id, period_start, period_end, link_ctr_pct, followers_net" IgAccountSnapshotEnrichmentRow (L443-448) 5 campos conforme texto 5 campos conforme tipo  Correto

37 "validateIgAccountSnapshotEnrichmentRow: type guard" validateIgAccountSnapshotEnrichmentRow (L450-462) Valida 5 campos Valida 5 campos  Correto

38 "TopCityEntry com name, pct" TopCityEntry (L464-467) 2 campos conforme texto 2 campos conforme tipo  Correto

39 "IgAudienceSnapshotRow com client_id, period, gender %, age %, top_cities" IgAudienceSnapshotRow (L469-483) 12 campos conforme texto 12 campos conforme tipo  Correto

40 "validateIgAudienceSnapshotRow: type guard" validateIgAudienceSnapshotRow (L485-502) Valida 12 campos Valida 12 campos  Correto

41 "SimulatedFunnelParams com alcance, ctrBio, taxaConv (PT-BR)" SimulatedFunnelParams (L504-508) 3 campos em PT-BR 3 campos em PT-BR  Correto

42 "SnapshotSelect com reach_total, profile_visits, link_clicks" SnapshotSelect (L510-515) 3 campos conforme texto 3 campos conforme tipo  Correto

43 "validateSnapshotSelect: type guard" validateSnapshotSelect (L517-527) Valida 3 campos Valida 3 campos  Correto

44 "RawRow: Record<string, unknown>" RawRow (L529) Tipo genérico Tipo genérico  Correto

45 "FetchOverviewParams com clientId, periodStart, periodEnd"
FetchOverviewParams (L531-535) 3 campos conforme texto 3 campos
conforme texto ☒ Correto

46 "RawKPIRow com id, metric, value, semaphore, delta_pct, period_start,
period_end" RawKPIRow (L537-544) 7 campos conforme texto 7 campos
conforme tipo ☒ Correto

47 "validateRawKPIRow: type guard" validateRawKPIRow (L546-558)
Valida 7 campos Valida 7 campos ☒ Correto

48 "RawQualityRow com id, score_key, score_value, status_text, status_variant"
RawQualityRow (L560-566) 5 campos conforme texto 5 campos
conforme tipo ☒ Correto

49 "validateRawQualityRow: type guard" validateRawQualityRow (L568-578)
Valida 5 campos Valida 5 campos ☒ Correto

50 "RawFormatRow com id, format_name, post_count, share_count, trend_label,
trend_color" RawFormatRow (L580-587) 6 campos conforme texto 6 campos
conforme tipo ☒ Correto

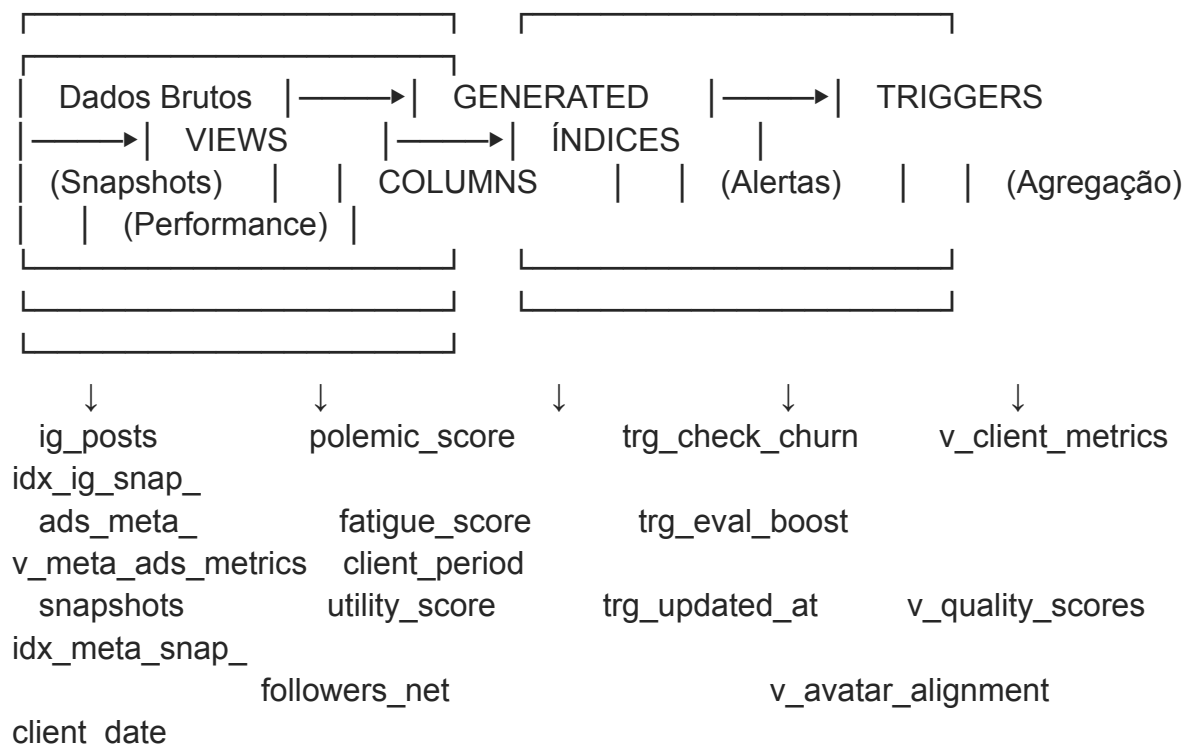

51 "validateRawFormatRow: type guard" validateRawFormatRow (L589-601)
Valida 6 campos Valida 6 campos ☒ Correto

52 "RawAudienceRow com id, client_id, age_range, gender_split, top_city,
recorded_at" RawAudienceRow (L603-609) 6 campos conforme texto 6 campos
conforme tipo ☒ Correto

53 "validateRawAudienceRow: type guard" validateRawAudienceRow
(L611-621) Valida 6 campos Valida 6 campos ☒ Correto

54 "DateBounds com earliest, latest" DateBounds (L623-626) 2 campos
conforme texto 2 campos conforme tipo ☒ Correto
